Anodised Aluminium Instrument Case, Black, 285 x 105 x 61mm

RS Stock number 1853237

Features

The range of general purpose Enclosure Cases are manufactured from a single, hollow aluminium extrusion. They have been specifically developed to offer a robust and precision, off- the- shelf unit in which to mount electronic circuitry at a competitive price.

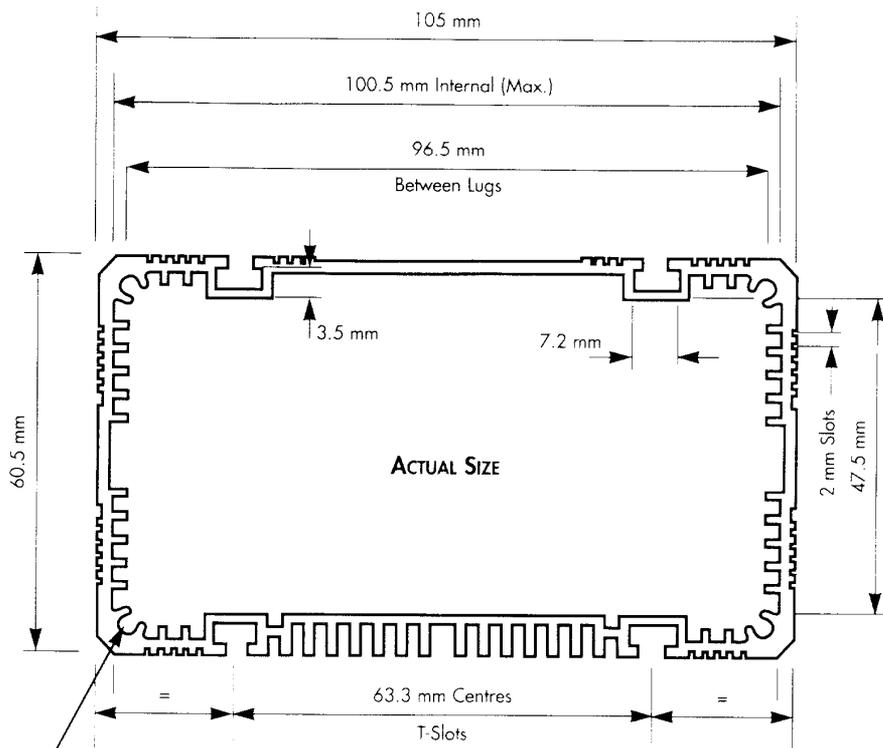

The external surface of the Case has been designed with a comprehensive series of fins to aid heat dissipation. Two 'T' slots have been provided at both the top and the bottom of the case which will accept an M4 half nut offering easy mounting.

The internal construction includes a series of printed circuit board mounting slots providing a degree of flexibility in board design. The slots will also accept the standard width Eurocards board.

The Cases have a decorative satin black anodised finish and are supplied complete with universal, 1.5mm thick end plates and stainless steel locating screws.
