

Releasable Metal Cable Ties

Product Specification

Releasable Tie offers greater flexibility through it's Fasten-unfasten-refasten capability.

Normal operating range for the uncoated ties is -40°C to $+300^{\circ}\text{C}$ and for the Coated version is -60°C to $+165^{\circ}\text{C}$. Coated ties have better weathering properties with excellent resistance to corrosion, radiation and abrasion.

Material: Stainless Steel (316 grade), available with black polyester/epoxy resin coating

Approval: DNV, Lloyd's, UL, ABS

Application: Marine, chemical, oil & gas, Maintenance
